

Macrame Hangers for Votive Candles

Materials

- 4 72" cords
- 1 glass jar
- 1 votive candle (not included)

Instructions

1. Lay your cords out so they are even. Fold them in half. Tie a knot at the fold for the hanger. (This is knot 1.)

2. Tape knot to your work surface.
3. Take any two cords and tie a knot about 4-5" below the knot taped to your work surface. Take the next two cords and repeat. Then do the same with the next two cords. Then do the same with the final two. (These are knot 2, knot 3, knot 4, and knot 5.) This completes your first row of knots.

4. Take one cord from knot 1 and knot 2 and knot them together about 1" further down your cords. (This is knot 6.) Do the same with the second cord from knot 2 and one cord from knot 3. (This is knot 7.) Repeat with the second cord from knot 3 and a cord from knot 4. (This is knot 8.) Finally, repeat with the second cords from knots 1 and 4 to complete your second row of knots. (This is knot 9.)

5. Take one cord each from knot 9 and knot 6 and knot them together about 1" further down your cord. Do the same with the second cord from knot 6 and one from knot 7. Repeat with the second cord from knot 7 and one from knot 8. Tie the remaining cord from knot 8 to the remaining cord from knot 9 to complete the third row of knots.

6. 1" below the third row of knots tie all eight cords together in one final knot.
